RESIDENTIAL EXPERIENCE STANDARD GOLD 2025

Discover College Life

The Transition to Residency (TRes) Program at Mannix College is an opportunity to experience College life without living at Mannix...yet.

It's simple: **you live somewhere else, but enjoy the friends, fun and support of Mannix!**

Whether you're originally from Melbourne or further afield, TRes allows you to become part of the Mannix community while living elsewhere in Melbourne and studying at Monash University.

As a TRes participant, you'll enjoy access to College facilities, events, activities and support services. You can study, socialise, make friends and get involved in College life, just like our residential students.

TRes is designed for students we'd love to welcome into full residency but cannot immediately accommodate.

There's another big benefit: **TRes participants receive priority consideration for residential places as vacancies become available throughout the year.**

It's a great way to enjoy the Mannix experience now, while keeping the door open to living at College in the future. Interested in TRes? Simply register your interest through your Mannix Application Update Form.

Find out more!

Exclusive Benefits

- **Priority access to residence vacancies for 2027**
- **Guaranteed residential admission for 2028** if a spot doesn’t open earlier
- **Membership in the Mannix College Student Society (MCSS)** – join clubs and social events
- **Welcome Week accommodation** and all orientation events
- **Regular lunches with TRes members** and senior staff
- **All Dining Hall meals** and fortnightly Formal Dinners
- **Full use of College facilities**, including the gym, music, sporting and study spaces
- **A personal storage locker** for your belongings
- **Academic and wellbeing support** from the Dean of Students, Director of Academics, and College Counsellor
- **Pastoral care and peer support** to help you settle into university life and make friends
- **Access to StudyFest,** the library, and learning support opportunities

Your Path to Residency

The TRes Program is a small cohort designed to step into residential places that become available when a resident on a full-year contract leaves the College during the year, most often due to a change in study plans or personal circumstances.

As a TRes participant, you are given priority consideration for these vacated places. Because you are already actively connected to College life, moving into full residency is simple and seamless.

Engagement matters. By taking part in college life through TRes, attending events, and building strong connections, you place yourself in the strongest position to be offered a residential place if one becomes available.

While a residential place during 2027 cannot be guaranteed, the TRes Program does guarantee you a residential place in 2028.

Voices from the TRes Program

“TRes gave me the chance to be part of college sport, which made a huge difference. It helped me make friends quickly and feel like I truly belonged at Mannix, even before living on campus full-time.”

“Through TRes, I got to experience formal dinners and Mannix traditions from the start. Those nights became highlights of my week and made university life feel special.”

“TRes made university life easier. Having meals, friends, and support all in one place meant I always had somewhere to go and people to lean on.”

“Even while living off campus, TRes kept me connected. Mannix felt like my base, where I could drop in, see familiar faces, and feel part of the community.”

“Arrival day was so much fun! Being in TRes, I was made to feel at home, as there was no difference between my experience and that of the other residents.”

Pricing

Pricing for the 2027 TRes Program is being finalised and will be published on our Fees and Scholarships page in December 2026. In the meantime, you can view the 2026 TRes fees on the same page as a guide.

TRes offers excellent value, including all meals, academic support, Welcome Week accommodation and activities, access to College facilities, events and programs, and much more.

Your TRes fees are also an investment in future residency. If you're later offered a residential place at Mannix, any TRes fees you've already paid will be credited towards your residential account, making the transition simple and seamless.
